Dashboard Details (Client Panel):

Client will get 3 attempts to login into the JRPDatapoint portal. Wrong information or more than 3 attempts will restrict the client from login for next few hours. It will show the below message for each invalid attempt.

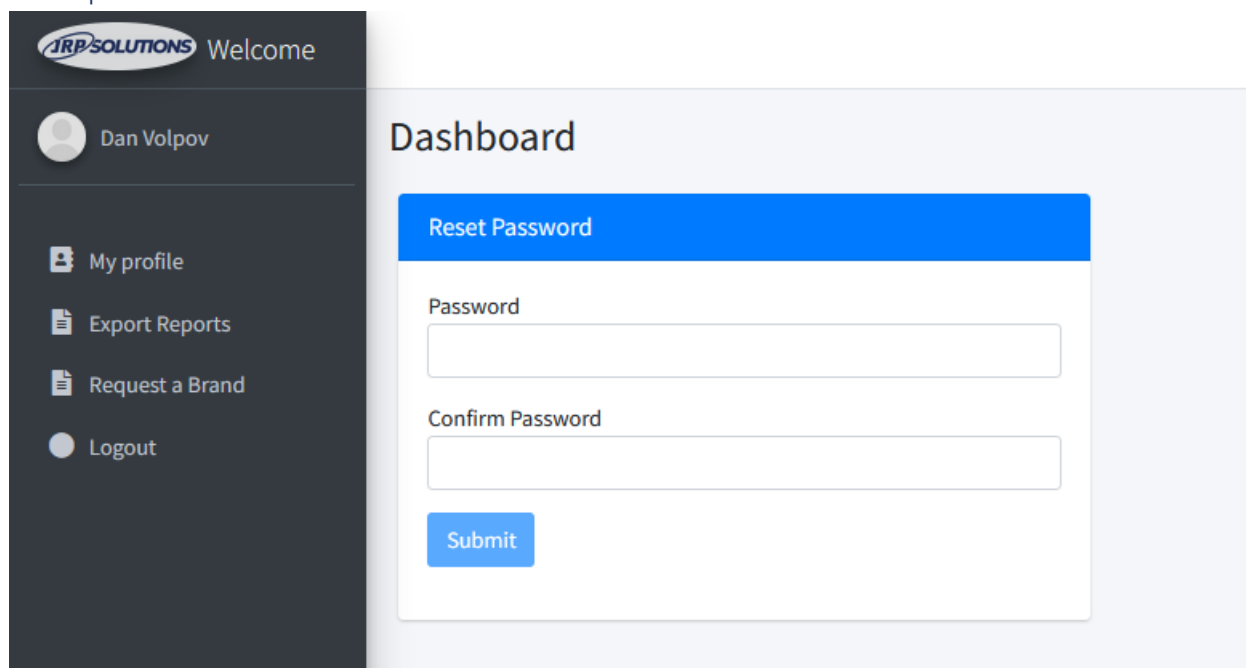

Dashboard

At Client profile page along with other personal information client will get FTP Username & Password and an option to reset client password.

Reset password:

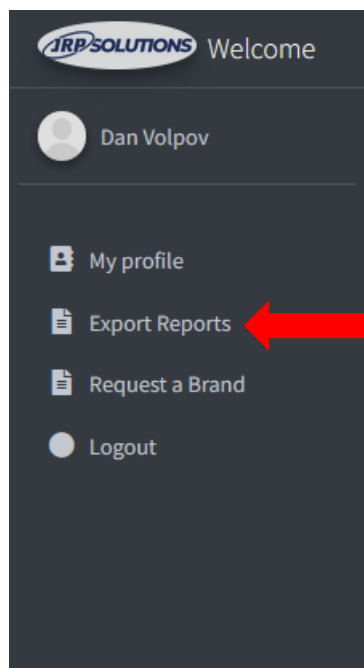

The screenshot shows the JRP SOLUTIONS dashboard. On the left is a dark sidebar with the JRP SOLUTIONS logo and 'Welcome' text at the top. Below this is a user profile section for 'Dan Volpov' with a circular icon. Further down are four menu items: 'My profile' (with a person icon), 'Export Reports' (with a document icon), 'Request a Brand' (with a document icon), and 'Logout' (with a circular icon). The main content area is light gray and titled 'Dashboard'. Centered in this area is a white box with a blue header 'Reset Password'. Inside the box are two text input fields labeled 'Password' and 'Confirm Password', and a blue 'Submit' button at the bottom.

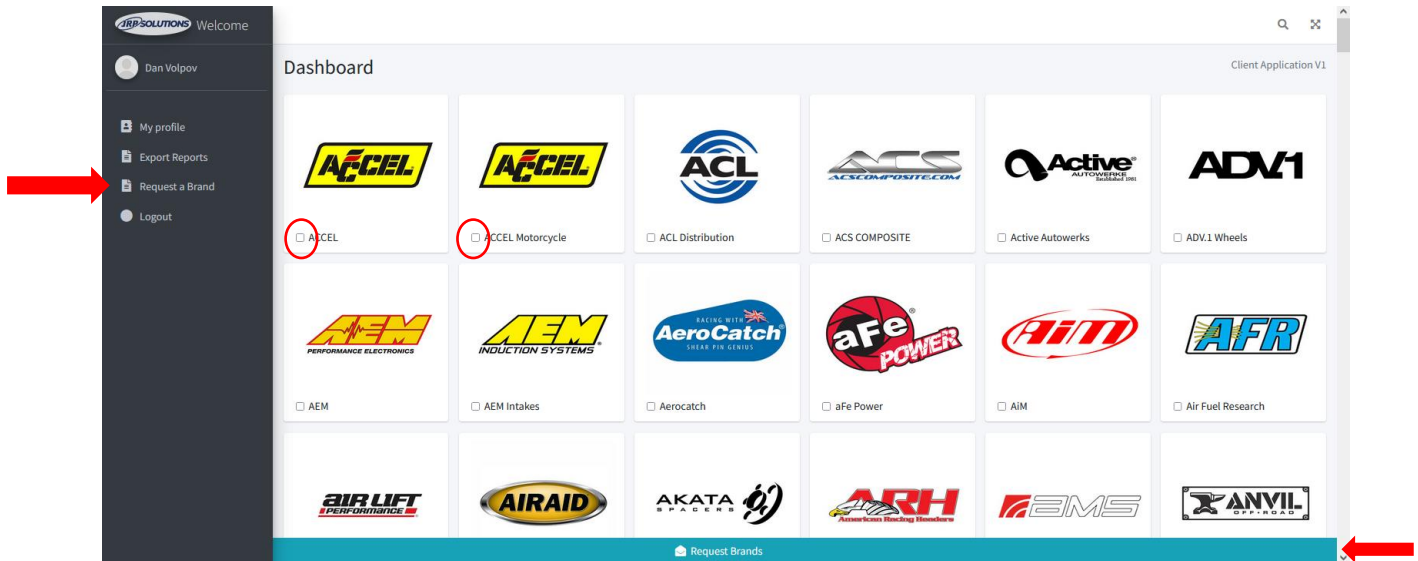

Password Rules: ** At least one number and one uppercase and lowercase letter, and at least 8 or more characters. Example: ***Datapoint20***

Download Feed/Report:

On left side menu please click on Export Reports link to download your feed on your computer. By default, it can be found at your download folder.

Request A Brand: If clients want to add any new brand with the feed, they can request through the Jrpdatapoint portal.

Step 1: Click left menu called “Request a Brand”.

Step 2: Select check boxes of desired Brands. Multiple can be selected.

Step 3: Press bottom button called “Request Brands”.

Your request will directly come to the authorized person.
